

INVENTING YOUR LIFE

THE INVENTING YOUR LIFE WORKSHOP

The number one reason people are not successful, in any given endeavor, is because they are not clear and specific about what they really want. The Inventing Your Life workshop begins by helping you to clearly define your goals. It also offers 6 creative, mental exercises which you can readily access, to simplify and speed up the inventing process. The goal of the workshop is that you leave the workshop empowered with greater clarity and renewed self-confidence; a powerful set of tools to rely on; and a simple outline of steps to follow to attain and maintain success.

The workshop also addresses and answers the following questions:

Who Am I?

Is there a divine plan for me?

What is my purpose?

Do I have a mission?

The *Inventing Your Life* workshop is not a lecture on the importance of positive thinking, nor is it a pep rally on how to stay motivated. The workshop identifies your personal strengths and weaknesses, which are standing the way of your success; and outlines the steps you will need to take to capitalize on your strengths, and to eliminate your weaknesses. You will also learn how to have constructive dialog with your mind, so it will consistently partner with you in the achievement of your success. Taking the workshop is similar to joining a fitness center. You will have access to the knowledge and the tools, but their effectiveness will depend directly on how committed you are to applying them. If you do the necessary work, you will see dramatic results.

The *Inventing Your Life* workshop is presently being offered as a teleseminar, conducted in 1.5 hour sessions, once per week, for 7 weeks, with a complimentary, monthly, continuing education class.

Teleseminar Fee: \$475

^{*} Fees are non-refundable; however, you may apply your full workshop fee to a future workshop for up to one year from registration date.
